November 13, 2025

Fitch Ratings Public Finance

Rating Philosophy and Process

- Credit ratings are forward-looking opinions on ability to meet financial commitments
- These opinions are expressed through application of a rating criteria
- Ratings are “through-the cycle”
 - Ratings should not necessarily change due to a moderate revenue downturn if the credit profile is expected to recover to prior levels in a recovery
 - Fundamental shifts in most cases which are not deemed temporary can change a credit profile and rating

Fitch Ratings Public Finance

Connecticut Ratings Overview

Rating Distribution of Connecticut City and Town General Obligation Ratings

Distribution reflects generally strong financial resilience with variation driven by economic , liability, and reserve levels metrics.

Fitch Ratings Public Finance

Current Factors Influencing Ratings Analysis - Tailwinds

Positive Factors that have supported CT issuer financial profiles over last few years:

- Vibrant real estate activity increased tax base valuations
- Population trends improved following pandemic
- Improved levels of reserves and liquidity following pandemic, due in part to federal ARPA moneys, improved property tax revenues, real estate transfer fees and investment income
- Prior low-interest rate bond refundings lowered debt service costs
- State aid generally positive for cities and towns and school districts
- Increased spending mitigating cyber risks

As a result, most Connecticut issuers Fitch rates are positioned to manage future risks

Fitch Ratings Public Finance

Current Factors Influencing Ratings Analysis - Headwinds

What we are seeing today as influencing local government issuers:

- Growth in insurance and salary costs driving budgets
- Higher education costs not covered by state aid
- Slower real estate activity due to lower supply, moderating of tax base growth
- Federal policy uncertainty (tariffs, regulations, programs, deportation) could impact near-term economic growth;
- Change in funding for long-standing federal and state aid programs
- Downsizing of federal government employees, corporate restructurings, AI transition raising unemployment and lowering personal income levels
- Potential deportation increasing population loss and labor shortages

Fitch Ratings Public Finance

Current Factors Influencing Ratings Analysis

Fitch Ratings outlook for local governments:

- Expectation for economic growth to slow; labor market conditions, income and GDP growth levels all weaken but remain positive this year
- Consumer spending moderates as tariffs lead to increased costs for goods, an increase in unemployment rates, and a pull back in spending
- Outside of wage and benefits pressures, local government spending demands are being driven by higher education costs/mandates, affordable housing, mental health and community safety
- Most local governments possess sufficient financial resilience, liquidity and budgetary control to address these challenges
- Governments may need to consider revenue increases (outside of property taxes) and/or reductions in services or staffing to maintain structural balance

Fitch Ratings Public Finance

New Local Government Rating Criteria

New criteria released April 2nd, 2024

Scope:

- Applies to GO bonds, leases/appropriation-backed, dedicated tax bonds
- The concept of an Issuer Default Rating (IDR) remains in place and is equivalent to the general obligation bond rating

Fitch Ratings Public Finance

New Local Government Rating Criteria

What is new?	What is the same?
• Model-based approach, with fixed metric weightings for greater rating clarity	• Importance of analytical judgement remains vital within the final criteria and model
• Notch-specific ratings communicated numerically to show 'headroom' within rating category	• Rating of dedicated tax bonds such as sales tax revenue bonds has not changed and remains the same as prior criteria
• An interactive external version of the model allows market participants to run scenario and see peer analysis	• Core credit factors considered remain broadly similar, we still look at: • Budgetary flexibility • Financial operating performance • Long-term liability levels • Economic base

Introduction – Model Framework Overview

LGRM Correspondence Table	
IDR	Metric Profile/Model Implied Rating Numerical Value
AAA	10
AA+	9
AA	8
AA-	7
A+	6
A	5
A-	4
BBB+	3
BBB	2
BBB- and below	1

Local Government Rating Criteria

Key Rating Drivers

Key Rating Driver

Financial Profile

- Considers legal ability to raise revenues (for Connecticut credits this is assessed as “High” due to unlimited taxing authority)
- Considers Expenditure Control (for majority of Connecticut issuers this is assessed as “Midrange”); considers contentious labor union negotiations which could weaken assessment
- Financial Resilience – considers level of unrestricted reserves*
 - 10% of spending or higher needed for ‘aaa’ assessment
 - 7.5%-10%; ‘aa’ assessment
 - 5%-7.5%; ‘a’ assessment
 - 2.5%-5%; ‘bbb’ assessment

*Sum of general fund committed, assigned and unassigned

Above ranges for reserves assumes ‘high’ revenue control and ‘midrange’ expenditure control

Local Government Rating Criteria

Key Rating Drivers

Key Rating Driver

Demographic and Economic Strength

- Population Trend (10 year median of yoy change)
 - Adjusted Median Household Income
 - Annual Unemployment Rate as % of National Rate
 - Percentage of Residents with Bachelors Degree or Higher
 - Economic Concentration
 - Population Size
-

Local Government Rating Criteria

Key Rating Drivers

Key Rating Driver

Long Term Liability Burden

- Direct Debt + Net Pension Liability as % of Personal Income
- Direct Debt + Net Pension Liability as % of Gov't Revenues
- Carrying Costs = Debt Service + Pension and OPEB Contributions compared to Total Gov't Expenditures

Local Government Rating Criteria

Additional Analytical Factors

Analysts may apply full rating notch adjustments (+/-) to capture relevant rating considerations that cannot fully be quantified in a model. Notching Categories Include:

- **Financial Profile**
 - high market value per capita over \$300,000
 - litigation risks
 - reliance on use of nonrecurring support
 - poor management practices
- **Economic and Demographic Strength**
 - taxpayer concentration
- **Long-Term Liability Burden**
 - inadequate pension contributions
 - very high OPEB liabilities
 - unusual debt structures

Fitch Ratings Public Finance

State of Connecticut – GO Bond Ratings

- Fitch upgraded Connecticut's GO rating to 'AA' (Sept. 2025)
- Drivers: improved revenue growth prospects; robust budget management; stronger reserves; offset by an elevated liability burden (debt plus net pension liabilities) and high fixed costs
- Other agency ratings: S&P: 'AA-' Moody's: 'Aa2' Kroll: 'AA+'

All Fitch Ratings (Fitch) credit ratings are subject to certain limitations and disclaimers. Please read these limitations and disclaimers by following this link. In addition, the following <https://www.fitchratings.com/rating-definition-document> details Fitch's rating definitions for each rating scale and rating categories, including definitions relating to default. Published ratings, criteria, and methodologies are available from this site at all times. Fitch's code of conduct, confidentiality, conflicts of interest, affiliate firewall, compliance, and other relevant policies and procedures are also available from the Code of Conduct section of this site. Directors and shareholders' relevant interests are available at <https://www.fitchratings.com/understandingcreditratings><https://www.fitchratings.com/site/regulatory>. Fitch may have provided another permissible or ancillary service to the rated entity or its related third parties. Details of permissible or ancillary service(s) for which the lead analyst is based in an ESMA- or FCA-registered Fitch Ratings company (or branch of such a company) can be found on the entity summary page for this issuer on the Fitch Ratings website.

In issuing and maintaining its ratings and in making other reports (including forecast information), Fitch relies on factual information it receives from issuers and underwriters and from sources Fitch believes to be credible. Fitch conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or in a given jurisdiction. The manner of Fitch's factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors. Users of Fitch's ratings and reports should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information Fitch relies on in connection with a rating or a report will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to Fitch and to the market in offering documents and other reports. In issuing its ratings and its reports, Fitch must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings and forecasts of financial and other information are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings and forecasts can be affected by future events or conditions that were not anticipated at the time a rating or forecast was issued or affirmed. Fitch Ratings makes routine, commonly-accepted adjustments to reported financial data in accordance with the relevant criteria and/or industry standards to provide financial metric consistency for entities in the same sector or asset class.

The information in this report is provided "as is" without any representation or warranty of any kind, and Fitch does not represent or warrant that the report or any of its contents will meet any of the requirements of a recipient of the report. A Fitch rating is an opinion as to the creditworthiness of a security. This opinion and reports made by Fitch are based on established criteria and methodologies that Fitch is continuously evaluating and updating. Therefore, ratings and reports are the collective work product of Fitch and no individual, or group of individuals, is solely responsible for a rating or a report. The rating does not address the risk of loss due to risks other than credit risk, unless such risk is specifically mentioned. Fitch is not engaged in the offer or sale of any security. All Fitch reports have shared authorship. Individuals identified in a Fitch report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only. A report providing a Fitch rating is neither a prospectus nor a substitute for the information assembled, verified and presented to investors by the issuer and its agents in connection with the sale of the securities. Ratings may be changed or withdrawn at any time for any reason in the sole discretion of Fitch. Fitch does not provide investment advice of any sort. Ratings are not a recommendation to buy, sell, or hold any security. Ratings do not comment on the adequacy of market price, the suitability of any security for a particular investor, or the tax-exempt nature or taxability of payments made in respect to any security. Fitch receives fees from issuers, insurers, guarantors, other obligors, and underwriters for rating securities. Such fees generally vary from US\$1,000 to US\$750,000 (or the applicable currency equivalent) per issue. In certain cases, Fitch will rate all or a number of issues issued by a particular issuer, or insured or guaranteed by a particular insurer or guarantor, for a single annual fee. Such fees are expected to vary from US\$10,000 to US\$1,500,000 (or the applicable currency equivalent). The assignment, publication, or dissemination of a rating by Fitch shall not constitute a consent by Fitch to use its name as an expert in connection with any registration statement filed under the United States securities laws, the Financial Services and Markets Act of 2000 of the United Kingdom, or the securities laws of any particular jurisdiction. Due to the relative efficiency of electronic publishing and distribution, Fitch research may be available to electronic subscribers up to three days earlier than to print subscribers.

For Australia, New Zealand, Taiwan and South Korea only: Fitch Australia Pty Ltd holds an Australian financial services license (AFS license no. 337123) which authorizes it to provide credit ratings to wholesale clients only. Credit ratings information published by Fitch is not intended to be used by persons who are retail clients within the meaning of the Corporations Act 2001.

Fitch Ratings, Inc. is registered with the U.S. Securities and Exchange Commission as a Nationally Recognized Statistical Rating Organization (the "NRSRO"). While certain of the NRSRO's credit rating subsidiaries are listed on Item 3 of Form NRSRO and as such are authorized to issue credit ratings on behalf of the NRSRO (see <https://www.fitchratings.com/site/regulatory>), other credit rating subsidiaries are not listed on Form NRSRO (the "non-NRSROs") and therefore credit ratings issued by those subsidiaries are not issued on behalf of the NRSRO. However, non-NRSRO personnel may participate in determining credit ratings issued by or on behalf of the NRSRO.
